St. Petersburg, Russian Federation - Nevosoft, a top Russian casual game developer, today is pleased to announce the release and immediate availability of Vogue Tales 1.0, its exciting new fashion-themed time management arcade title developed exclusively for Apple's revolutionary iPad device. Vogue Tales is an ideal game for all the fashion lovers who want to become designers and create their own collections!

"Haute couture", exclusive clothing, and trends hot off the catwalks were all a distant dream for Wendy, a young girl from the country who was running a small fashion house. But one day fate intervened. Wendy's grandmother gave her a special gift, a box that contained secrets to mastering sewing and design. Unfortunately that box was stolen right after she got it! Now she has to speed up her slow pace of life and chase the thief all the way to London to get the box back.

During her journey she will improve her sewing skills and learn about world fashion. But first she must earn some money to purchase the ticket to the capital to chase the burglar and start her investigation. Right now Wendy's business is not doing very well and she is running out of time, so it's up to player to help!
