* Price Box value = $4.99
* Logo Object value = $99.99
* Talk Bubble value = $29.99

Only $3 for a limited time (save 99%, total value is $379.90)!

More Mini Design Bundle Details:
4 icon sets are included: Mobile, Application, Web, and General. Each contains the original AI and EPS source files to edit as needed, as well as transparent PNG versions of each icon in the following pixel dimensions: 16x16, 32x32, 64x64, 128x128, 256x256, 512x512, and 1024x1024. The Mobile, Application, and Web icon sets also include both Active and Regular states!

Looking for a unique logo for your own business, or would you like some new creative options you can use to design logos for clients? The bundle includes over 50 fully layered logo templates in PSD (Photoshop) format. Simply open these in Photoshop and change the name and/or look of the templates to make your own. You can also use any of the 100

logo-centric graphics as the basis for a logo (or any other graphic project!). Each logo graphic is in high-resolution transparent PNG format to use in any application that supports standard image formats.

Have something to say and want people to notice? Grab one of the eye-catching talk bubbles and place your text inside to quickly attract attention. These talk bubbles are not your ordinary, boring round shapes. Express a thought, shout out an announcement - use these creatively shaped captions to highlight your message! Each talk bubble comes in fully layered PSD (Photoshop) format, as well as a high-resolution transparent PNG.

Apple leads the way in stylistic design for everything they create. The website buttons included in the bundle follow in their design footsteps, making it easy for people to notice and read what they are clicking. These buttons are in fully layered PSD (Photoshop) format, making it easy to edit and save to use in your own website design work.

Price boxes are great attention grabbers and the perfect way to advertise a product, service or special offer. Since these prices boxes are in fully layered PSD (Photoshop) format, you can quickly add your own information, change colors or shapes, adjust the size, or anything else your heart desires. Then save them in any standard image format and use as a web banner, advertisement, call out, and more.

Use background textures to add knock out or subtle effects in any design project: email messages, website pages, advertisements, cover pages, brochures, banners, text art, and everything else. Each background is in high-resolution JPEG format to use in any application that supports standard image formats, or feel free to make changes using the original layered PSD (Photoshop) file.

System Requirements:
* Requires Mac OS X 10.6.8 or later
* 10.8 MB
* Requires Adobe Photoshop for PSD and EPS files, and Adobe Illustrator for AI files.
