

## **Sweeter Rhythm LLC ships Harmony 1.0 - Dynamic Lyric Presentation**

Published on 06/24/09

Sweeter Rhythm LLC today is delighted to announce the release of Harmony 1.0, dynamic lyric presentation for worship leaders and churches. Harmony makes worship presentation effortless. It automatically scales to your projector's size and aspect ratio and takes the hassle out of set-up. Harmony delivers SongSelect importing, and nursery call for children that need to be picked up during the service.

Centennial, CO - Sweeter Rhythm LLC is delighted to announce the release of Harmony 1.0, dynamic lyric presentation for worship leaders and churches. Harmony makes worship presentation effortless. It automatically scales to your projector's size and aspect ratio and takes the hassle out of set-up. Harmony delivers SongSelect importing, and nursery call for children that need to be picked up during the service.

It's innovations include: live search of your songs; a preview window for those occasions when you don't have a projector around; and motion lyrics with LyricDance. While supporting traditional video loop motion backgrounds, Harmony goes one step further by offering continuously animated backgrounds (Quartz Compositions) for a truly unique look to your presentation.

Other features include:

- \* Playing movies and displaying still images
- \* Displaying verses from the Holy Bible (KJV included, more translations are in the works)
- \* A great song editor that makes it easy to add, remove and change your songs

System Requirements:

- \* Mac OS X 10.5 and higher
- \* Quartz Extreme capable-graphics card supporting 2 monitors
- \* SongSelect importing requires a subscription from CCLI and Internet connection

Pricing and Availability:

Pricing is \$199 (USD) for a site license. A free 30-day trial is available.
