

## Apple includes Theodolite among 'Amazing' iPad apps during Special Event

Published on 10/23/13

At Apple's October 22 Special Event, Apple CEO Tim Cook introduced a clip showcasing "All of the amazing ways our customers are using iPads," and the Theodolite augmented reality navigation app was shown featured atop the Great Wall of China. Theodolite is a heads up display with compass, GPS, map, zoom photo/movie camera, rangefinder, tracker & two-axis inclinometer. Find out why Apple included Theodolite among the most amazing apps for iPad. Where will you take it? What's your next adventure?

Williamsburg, Virginia - At Apple's October 22 Special Event, Apple CEO Tim Cook introduced a clip showcasing "All of the amazing ways our customers are using iPads," and the Theodolite augmented reality navigation app was featured among them.

A range of remarkable apps were showcased as examples of playful, astonishing, and ingenious uses for the iPad. Theodolite is shown being used atop the Great Wall of China, as an iPad user surveys the amazing mountain scenery and ancient architecture around him.

Theodolite is a multi-function viewfinder that combines a compass, two-axis inclinometer, rangefinder, GPS, map, nav calculator, tracker, and geo-tag photo/movie camera into one indispensable app. Uses are endless, and the app is great for hiking, boating, hunting, golf, outdoor sports, sightseeing, navigation, and finding your way around. Theodolite also has professional grade features, and is used extensively by surveyors, geologists, architects, engineers, competitive sportsmen, first responders, military personnel, and search and rescue workers around the world.
