The video tutorial consists of 59 easy-to-follow video chapters on various subjects. Everything the user needs to help them take control of their Mac and OS X Mavericks.

Holland, Michigan - Noteboom Productions today is pleased to announce the release and immediate availability of Tutor for OS X Mavericks, their latest video tutorial, now available on the Mac App Store. With Tutor for OS X Mavericks, the user watches videos to learn how to use OS X Mavericks, Apple's latest operating system for the Mac.

The video tutorial consists of 59 easy-to-follow video chapters totaling eight hours on various subjects. These video chapters include an overview of Mavericks' new apps, Maps and iBooks, as well videos on how to use Mavericks' new tagging and tab feature in the Finder. The tutorial also includes videos on how to add parental controls, accessibility options, the importance of backing up your computer and how to use Time Machine to back it up. The tutorial ends with troubleshooting tips on OS X, iPhoto, and more. Everything the user needs to help them take control of their Mac and OS X Mavericks.

Features include:

- * 59 Easy-to-Follow Videos on OS X Mavericks
- * Notes - Users can take notes while watching the tutorial
