

BatchOutput for Microsoft Word Now Supports Mac OS X 10.9 Mavericks

Published on 10/28/13

Zevrix Solutions announces BatchOutput DOC 2.2.4, a compatibility update to its popular output automation solution for Microsoft Word on Mac OS X. BatchOutput automates printing of multiple documents and allows to carry out powerful professional PDF production directly from Word, eliminating the need for time consuming post-processing. The new version makes BatchOutput DOC compatible with Mac OS X 10.9 Mavericks and addresses some stability and performance issues.

Toronto, Canada - Zevrix Solutions announces the release of BatchOutput DOC 2.2.4, a compatibility update to its popular output automation solution for Microsoft Word on Mac OS X. The software provides advanced solutions for demanding enterprise and office publishing environments through automation of printing and professional PDF output. For example, users can leave BatchOutput to print hundreds of Word files overnight, and then pick up the completed job next morning.

The new version makes BatchOutput DOC compatible with recently released Mac OS X 10.9 Mavericks and is offered as a free update to the current BatchOutput DOC users.

In addition to batch printing, BatchOutput DOC allows to carry out powerful professional PDF production directly from Word, helping users simplify and streamline the conversion process. The software brings advanced PDF creation options right to the user's fingertips and offers the following key features:

- * Print and export multiple Word documents to PDF
- * Split Word documents into single page PDF files
- * Compose variable output file names based on page number, user name, date and other values
- * Reduce PDF file size and optimize documents for web, print or mobile devices
- * Encrypt and password-protect PDF from unauthorized copying, printing and viewing
- * Apply Quartz filters to change PDF color tone, brightness and other qualities

BatchOutput DOC is a part of the Zevrix BatchOutput family of products which also includes output automation solutions for Microsoft Excel, PowerPoint, Adobe InDesign and PDF workflows.

Pricing and Availability:

BatchOutput DOC can be purchased for US\$39.95 from Zevrix Solutions website as well as from authorized resellers. Trial is also available for download. The update is free for users of version 2.x and \$19.97 from version 1.x. BatchOutput DOC runs on Mac OS X 10.5 - 10.9, is a Universal Binary, and works with Microsoft Word 2008 and 2011.
