New Delhi, India - The battle of prices continues to heat up in App store as 'A Business Tycoon Developers', Sheryl Apps have slashed the price of its business stimulation game from \$2.99 to \$0.99. The reduced price is said to be valid for a limited time so all the business game fans should grab it right now before it's price goes up again.

"We want everyone to try out this game and i believe at this price it is one of the most value for money business game on App store" said Ankur Gupta, founder of Sheryl Apps. "We are receiving rave reviews for the game so far and some of them have provided great suggestions for the future versions".

For those who don't have any clue about the game, 'A Business Tycoon' is simple to understand: the gamer's sole motive is to maximize profits generated through buying and selling assets with the help of price charts and other tools. The game offers users hundreds of assets to choose from across varying price ranges. Prospective tycoons start with initial capital of \$10 million - and with the app's endless gameplay, they'll soon find themselves addicted.

The game becomes even more interesting with the introduction of share trading- but the real highlights of the game are its luxury and mate sections that reward users for their successful ventures. These exclusive rewards can be unlocked one by one - only the most successful entrepreneurs will reap the benefits.

One of the major things that have caught attention in regard to this game has been the unusual contests associated with the game. After 'the Land on Mars' Contest they had opened another contest that is still in operation. In the contest the user is required to buy the full version of the game and post a meaningful review of the same on app store.

Through a lucky draw, a winner will be chosen after 30th June and will be awarded 5% of sales revenue generated from the game between 13th June to 29th June. For more details about the contest visit SherylApps website.

Minimum Requirements:
iPhone or iPod touch 2.2.1 or later

With the current price drop and these other goodies (contest) it is now one of the must-have games on your iPhones and iPods so go and grab it before both of these offers run out.
