

New App Debates Saving New Photos from iDevice to Computer in One Tap

Published on 11/25/13

Simplex Solutions is proud to introduce Sync Photos to Storage 1.0.0 for iOS. The new app lets iOS users save new photos and videos from Camera Roll to computer and Dropbox in one tap. It makes routine photo transfers quick and hassle-free. The key feature is its ability to recognise the photos and videos that were not uploaded to the target folder before and save only new snaps and recordings every time the user chooses to make the transfer. Sync Photos to Storage is available for iOS and Mac.

Based in New York - Simplex Solutions Inc. is thrilled to announce the release of Sync Photos to Storage 1.0.0 - the first iOS app that enables its users to save new photos from Camera Roll to computer or Dropbox folder in a single tap. The app is distributed as free download via iTunes App Store. Its Mac client is available for free download from the product website.

Sync Photos To Storage 1.0.0 makes routine photo transfers quick and hassle-free. In lots of cases, the owners of mobile devices transfer their photos and videos with the goal to keep them for future reference, while computers and cloud storage's appear the most popular places, where the users store their content. Sync Photos to Storage is designed to minimize the efforts required for transferring new photos to the storage of choice to just one tap.

The key feature of the app is its ability to recognise the photos and videos that were not uploaded to the target folder before and save only new snaps and recordings every time the user chooses to make the transfer. It helps save much time and effort on selecting the new photos and videos manually.

Sync Photos to Storage transfers photos and videos over WiFi and requires a client app to be installed on the user's computer. Version 1.0.0 comes with Mac client that can be downloaded from the product website. Other desktop platforms will be supported in the nearest future.

Sync Photos to Storage offers attractive minimalistic design which is built around the prominent Put to Storage button.

Device Requirements:

- * Requires iOS 6.1 or later
- * iPhone, iPad and iPod touch
- * This app is optimized for iPhone 5
- * 9.6 MB

Pricing & Availability:

Sync To Storage is available as a Free download from iTunes App Store. In free mode, the app allows to save photos and videos one by one. The full version that allows saving all new photos and videos in a single tap can be unlocked via in-app purchase for only \$1.99 (USD).
