

## MileBug 1.4 released for iPhone and iPod Touch

Published on 07/02/09

Izatt today announced MileBug 1.4, the latest release of it's flagship iPhone app in both full and lite versions. Version 1.4 is compatible with iPhone OS 3.0, includes a new Lite icon, easy access to the MileBug blog, and more. MileBug helps those driving their own vehicles for business, charity, medical, or other reasons receive their reimbursement and/or tax deduction. MileBug provides the option to track miles or kilometers as well as enter custom rates.

American Fork, Utah - MileBug and MileBug Lite, version 1.4, have now been released with support for the latest iPhone OS 3.0. MileBug is one of the veteran App Store applications first available in August 2008, and can often be found in the Top 20 of the Finance category. The free lite version is available in the Business section. From small to big business, from realtors to direct sales consultants, MileBug continues to serve those needing a mileage tax break.

"I've been using it for 2 months now and it is the first thing I do when I drive anywhere. Very handy app and well worth the cost." - customer review, 5 May 2009

"As a realtor, I am always going somewhere. This program makes it extremely easy to track my miles for tax purposes." - customer review, 27 March 2009

"I am an independent Mary Kay Consultant and just got done with my taxes for 2008...2009 taxes should be a lot easier! Thank You!" - customer review, 11 March 2009

"The trip log that I liked best is MileBug from Izatt International." - The Apple Blog

"Milebug saves you time and money; and is a MUST have for any business owner." - iReviewiPhoneApps

The new update (version 1.4) includes the following:

- \* Allows dates in the future
- \* Access to MileBug blog
- \* Send MileBug App Store link to a friend
- \* New About Screen
- \* New icon for Lite version
- \* Bug fix - 24 hour setting prevented times later than 11:59
- \* Support for iPhone OS 3.0

MileBug helps those driving their own vehicles for business, charity, medical, or other reasons receive their reimbursement and/or tax deduction. In the U.S., IRS business rates are 55 cents/mile for 2009. MileBug for the iPhone/iPod Touch helps people track their miles and provides emailed reports for easy submission to employers, accountants, and the IRS.

"MileBug is a mileage tracker for your iPhone or iPod Touch that makes it super easy to . . . track your mileage. This is great if you need to report your mileage to your boss ... the [IRS] ... or for any personal reasons." - AppStoreApps

"In my job, I need a way to track mileage for work trips around town. MileBug does a great job of providing a really simple (and IRS friendly) method of tracking my trip logs. I really like how I can export the reports to email for reimbursement and reporting." - The Apple Blog

prMac: Publish Once, Broadcast the World :: <http://prmac.com>

Inside the Settings app is an option to select kilometers instead of miles. From within the Presets, users can define custom rates for business, charity, medical, and other categories. If you get one rate from your employer for reimbursement, and another rate from the IRS for your side business, you simply create two different business rates.

Pricing and Availability:

MileBug is low priced at \$3.99 (USD) - at \$.55/mile from the IRS, that's less than 8 miles to cover the price.
