

## Wallpapers HD: Truly Custom Wallpapers Free - Now Released

Published on 12/02/13

AppVision Ltd today introduces Wallpapers HD 1.3, its new Free app for iOS. Based upon the company's popular Neon Wallpaper Maker app, itself responsible for 60 million backgrounds worldwide, Wallpapers HD offers anyone the ability to customize their device using a choice of text effects. Effortlessly create personalized wallpapers without the need for any graphics editing on the device. There are literally hundreds of thousands of combinations to choose from in order to customize the device.

Wakefield, United Kingdom - AppVision Ltd have announced the latest app in their customization app portfolio - Wallpapers HD - and this one's Free! Based upon Neon Wallpaper Creator (an Apple Staff Favourite, and rated 4/5 by MacWorld), its unique feature is the ability to customize the device using a choice of spectacular text effects; to create personalized wallpapers without the need for any graphics editing on the device.

With an iOS7 look-and-feel, Wallpapers HD gives the user a number of built-in fonts to try out for free, and the option to purchase other fonts either individually or as a whole package (for just \$2.99/GBP1.99 for all of them). Its 'sibling applications' have now created and served out over 60 Million individual customized images for iPhones and iPod touches the world over.

In summary, Wallpapers HD provides the ability to dynamically render customized text on top of an image using a number of image sources:

- \* 200 static built-in backdrops
- \* Categories of dynamic images that are updated server-side (no update to the app required for new content)
- \* Photos and images from the Photo Library

Using images from these sources, the application has a number of settings/choices that control the look of the custom text rendered onto the image:

- \* 40+ fonts
- \* 20 font colours
- \* 18 font effects
- \* 360-degree rotation
- \* Variable font size
- \* Positioning of the text

There are literally hundreds of thousands of combinations to choose from in order to customize the device. The app also allows native posting of the custom images to Twitter and Facebook, and the emailing straight from the application out to any contact.

Device Requirements:

- \* iPhone, iPad, and iPod touch
- \* Requires iOS 5.0 or later
- \* 15.0 MB

Pricing and Availability:

Wallpapers HD 1.3 is Free and available worldwide exclusively through the App Store in the Photo & Video category. Users may in-app purchase other fonts either individually or as a whole package for just \$2.99/1.99 GBP for all of them.
