

Dragshare for Dropbox 1.0 - Easy and safe file sharing for your Mac

Published on 12/11/13

Dragshare for Dropbox is a Mac app that makes file sharing through your Dropbox account really easy. Just drag one or more files to the icon in your menu bar and it will generate a Dropbox link for you to share. Your files are not uploaded to any other third party service and are safely stored within your Dropbox account. Drag multiple files to your menu bar and Dragshare will automatically zip them and create a link for your zipped archive. You can email/share your file afterwards.

Veenendaal, Netherlands - Dutch app development company GoVisual today is proud to announce the release of Dragshare for Dropbox 1.0, a Dropbox file sharing utility that lives in your Mac OS X menu bar.

Dragshare makes sharing files through your Dropbox account really easy. Just drag one or more files to the icon in your menu bar and it will generate a Dropbox link for you to share. Your files are not uploaded to any other third party service and are safely stored within your Dropbox account. Drag multiple files to your menu bar and Dragshare will automatically zip them and create a link for your zipped archive. You can email/share your file afterwards.

Notable features:

- * Drag & Drop file sharing through your Dropbox account
- * Dragging multiple files will automatically create a zip archive
- * Files are stored safely within your Dropbox account
- * Quickly share your generated link through e-mail, Twitter or Facebook

Minimum Requirements:

- * Mac OS X Version 10.8 or higher

Pricing and Availability:

Dragshare for Dropbox 1.0 is available at the introductory offer price of only \$1.99 USD (or equivalent amount in other currencies) and available worldwide through the Mac App Store. A 15 day trial version can be downloaded from the Dragshare website.
