

## Novelty App Utilitarian in Loud Places, Quiet Spaces

Published on 07/06/09

triggerhappy today announces Status Symbols 1.0 for iPhone and iPod touch. Status Symbols is sign language for what's on your mind. The app came about after recognizing the need to communicate in loud places and quiet spaces. Come up with your own creative usage or be lazy and refer to our handy key. Soon to be universally recognized as the liberation of communication, status symbols = sign language for what's on your mind.

New York, NY - Simple, silly and surprisingly useful. The Status Symbols iPhone app came about after recognizing the need to communicate in loud places (concerts, bars) and quiet spaces (libraries, movies, funerals). Loud speakers drowning you out? Want to talk but your mouth is full?

The status symbols novelty app was created with you in mind. No need to announce to an entire room that you have to use the WC. Flash the icon instead. Vertically challenged? Follow the arrow and find your friends. Next round on you but how many drinks to bring back? Number sign. Signals of distress or all systems go, minimalist illustrated graphics send a clear message. Come up with your own creative usage or be lazy and refer to our handy key. Soon to be universally recognized as the liberation of communication, status symbols = sign language for what's on your mind.
