

Mail plugin Graffiti allows to design beautiful email signatures

Published on 01/06/14

ChungwaSoft today introduces Graffiti 1.0 for Mac OS X, their new plugin for Apple's Mail application. Graffiti allows anyone to design beautiful email signatures. Besides a simple graphical interface for designing the signature, it also supports HTML and CSS for more advanced style definitions. Graffiti adds way more flexibility when creating email signatures than Apple's builtin signature functionality. An effective way of making email messages look more professional or simply more beautiful.

Aachen, Germany - ChungwaSoft today is proud to announce the release and immediate availability of Graffiti 1.0 for Mac OS X, their new plugin for Apple's Mail application. Graffiti allows anyone to design beautiful email signatures. Besides a simple graphical interface for designing the signature, it also supports HTML and CSS for more advanced style definitions. Graffiti adds way more flexibility when creating email signatures than Apple's builtin signature functionality.

Email signatures are a very effective way of making your email messages look more professional, more personal or simply more beautiful. With Graffiti it becomes easier than ever before to design wonderful email signatures without being a webdesign expert.

With Graffiti, you are able to design your email signature without any limitations. With HTML and CSS you can even re-use parts of your personal or professional website. Include hyperlinks to websites, social media profiles or personal images.

Graffiti supports templates to define a common look of email signatures within your company. You can easily design your own template and use them on different computers. Graffiti will automatically fill in the particular user's personal information while retaining a common design based on the signature template.

Signature Template Design Contest:

- * Design your own email signature template following the instructions
- * Send the resulting template file to support@chungwasoft.com (you are allowed to send in multiple designs)
- * All signatures that we will have received until January 20th, 2014 will be presented on this website until February 3rd, 2014 vor voting
- * The top-3 signatures by votes will be rewarded with AppStore coupons with a total value of Euro 200
- * The top-10 signatures by votes will be included in the next major update to Graffiti

Pricing and Availability:

There is a special launch offer for Graffiti 1.0: Instead of \$9.95 USD/8.95 Euro, the plugin can be purchased for only \$4.97 USD/4.47 Euro until January 17th.

Special Licenses for Testing and Promotion:

If you need special (free) licenses for testing the plugin or application or if you want to have a promotion alongside with your article, then please don't hesitate to contact us.
