

SlowCam for iOS - Realtime Slow Motion Video Camera - Free for Few Days

Published on 01/20/14

Lucky Clan has announced that SlowCam 1.2, an universal, realtime slow motion video camera is now free for limited time. Offering support for all devices with iOS 7, SlowCam allows anyone to record amazing slow motion videos in real time. SlowCam always uses the max available frame rate for device. Tap and hold slow motion button during recording to capture video at 60/120 FPS for ultra smooth slow motion capture. After recording is finished, SlowCam renders and saves video to the Camera Roll.

Lodz, Poland - Lucky Clan has announced that SlowCam 1.2, an universal, realtime slow motion video camera is now free. App will return to its normal price \$1.99 in few days. SlowCam allows to record amazing slow motion videos in real time. Tap and hold slow motion button during recording to capture video at 60/120 FPS* for ultra smooth slow motion capture. Support for all devices with iOS 7.

* Framerate of each device (30, 60, 120fps) is limited only by hardware and iOS, SlowCam always uses max available framerate for device

Advantages over standard iOS7 solution:

- * No need to select "slow motion" parts
- * Disk space is saved because video is stored in 30fps format
- * Works on iPhone 5/5C (60fps), iPad Mini (60fps), other iPads/iPhones (30fps)
- * You can select more than one "slow motion" part
- * Transition from normal speed to slow motion is smooth

Features:

- * Tap and hold "Slow Motion" button to record in high frame rate slow motion. Possibility to set it to just tap to start slow motion in iOS settings
- * Smooth transition from normal speed to Slow Motion
- * Slide Zoom button to zoom in/out (iPhone 5+)
- * Support of 120 FPS (iPhone 5s), 60 FPS (iPhone 5/5C, iPad mini), 30 FPS (other devices)
- * Set Focus/Exposure point together or separately (double tap to reset)
- * Rendering in background - you can record next video even when the previous is being rendered
- * Saving video in Camera Roll
- * Torch

Device Requirements:

- * iPhone 4/4S/5/5S/5C, iPod touch (4th/5th generation), iPad (2nd/3rd/4th/Mini)
- * iOS 7.0 or later
- * Universal Application
- * 0.8 MB

Pricing and Availability:

SlowCam 1.2 is free for a limited time. Normal price is \$1.99 USD (or equivalent amount in other currencies) and available worldwide exclusively through the App Store in the Photo & Video category.
