

Shoot pictures and have fun with Catch N Shoot - Bugs Life on iOS

Published on 01/30/14

California based Fierro Studios LLC has announced the recent release of Catch N Shoot - Bugs Life 1.0, their new game for iOS devices. A wildly entertaining new mobile game experience, Catch N Shoot challenges users to take pictures of insects. To make things more fun and more difficult for gamers each level will have 1 or more bugs for players to catch. In order to win players have to shoot fast and make less number of shoots to get the higher score.

Los Angeles, California - Fierro Studios LLC, an innovative mobile game developer, has today announced the recent release of Catch N Shoot - Bugs Life 1.0 for the iPhone, iPad, and iPod touch devices. Created for pure entertainment, this mobile shooter puts players into the shoes of a sharp shooting photographer challenges users to take pictures of insects. To make things more fun and more difficult for gamers each level will have 1 or more bugs for players to catch. In order to win players have to shoot fast and make less number of shoots to get the higher score. Catch N Shoot - Bugs Life 1.0 is currently available on the Apple App Store in the Games category for only \$0.99 (USD).

This exhilarating new mobile game takes proven gameplay elements and blends them with a whimsical catch and shoot theme, a unique action, and crazy new scenarios. The game is simple yet deceptively engaging and addicting. The main goal of the player is to catch and shoot a picture of the insect with your camera with the less number of shoots to get more points. To make things more interesting player's time is limited, meaning that player has to make every shot count and mind their time as well. App offers a wide range of various insects like butterflies, dragonflies, cicadas, bees, wasps and more. Catch N Shoot - Bugs Life features extremely helpful how to guide for new players, beautiful environments, and 3 difficulty levels: easy, normal and hard.

Catch N Shoot - Bugs Life prides itself no both its innovative gameplay dynamics as well as it's family friendly nature. The app's user interface is extremely straight forward and the game's aiming controls are at once intuitive and responsive. Gamers can adjust the camera shooting button left/right, and enable vibration when you get sting if your device supports this feature. Catch N Shoot - Bugs Life was created for users to have a mobile resource that would not only entertain them but also give them an avenue through which they could enlarge their knowledge about bugs. Utilizing well thought out game levels together with vibrant dynamic animations and graphics, Catch N Shoot - Bugs Life was able to achieve just that.
