

Voila screen capture brings HD recording and more on its 5th anniversary

Published on 02/06/14

Global Delight today releases Voila Screen Capture 3.7, on the occasion of 5th anniversary to its all-in-one screen recording solution for Mac. Version 3.7 features screen capturing at 60 frames-per-second, capture timer and performance improvements for OS X Mavericks. Voila gives you all the tools that you need to grab, edit, organize & share anything from your desktop or a web page. Easy-to-use and super handy, Voila is perfect for creating dynamic multimedia presentations, tutorials and more.

Udupi, India - Global Delight today is proud to announce the release of a brand new update to Voila, its popular Mac screen capture and recording tool for Mac. The latest version, Voila 3.7, includes several key improvements such as smoother 60 frames-per-second (FPS) recording and a timed screen-recording feature to make it more power-packed and intuitive to use.

Voila recently celebrated its fifth year anniversary, and Global Delight is poised for several exciting updates to the app in order to add to its versatility.

Voila 3.7 offers several new exciting features:

- * Record anything on your Mac screen at up to 60 FPS for enhanced, hi-def recordings
- * Set a timer for your recordings for precise video capturing
- * Seamlessly share captures and recordings to Facebook, Twitter, Flickr, Vimeo, Messages and via Airdrop or Airmail
- * Scale down and export Retina captures
- * Explore native Mavericks OS X tagging, including date and time file naming conventions
- * Experience stability and performance enhancements throughout

"We're proud that Voila recently turned 5. With version 3.7, screen recording has been given a major boost and we hope to continue updating Voila with more innovative features in the near future," said Guruprasad Kamath, Director of Marketing for Global Delight.

Voila 3.7 is part of Global Delight's ongoing commitment to make it a brilliant all-round screen capture and recording tool for educators, graphic designers, students, DIY enthusiasts and others that need easy yet professional captures at their fingertips.

Pricing and Availability:

Available immediately, Voila 3.7 can be purchased for \$29.99 USD for a single license via the Mac App Store and Global Delight web store. Voila is also available for educational institutions, NGOs, and non-profit organization at a 33% discount (\$19.99 USD). Existing Voila customers running at least Voila version 3.0 can update to Voila 3.7 for free.
