

Jumpy Horse Show Jumping 1.0 - Brand New Equine Game for iPad and iPhone

Published on 02/10/14

Internet Reshenia LLC today introduces Jumpy Horse Show Jumping 1.0, a brand new equine game for iOS devices. This app allows users to create customized jumping courses and race a variety of horses through them. There are several different modes of gameplay to challenge the player including Auto, Jump, Speed, and Advanced. Players choose a variety of obstacles to design a unique course that their horse can race. 7 breeds of horses can also be customized with different colors and markings.

Burgas, Bulgaria - Internet Reshenia LLC today is pleased to announce the release and immediate availability of Jumpy Horse Show Jumping 1.0, a brand new equine game for iPhone, iPad, and iPod touch devices. Jumpy Horse Show Jumping allows users to create customized jumping courses and race a variety of horses through them.

Feature Highlights:

- * Vivid graphics and realistic animations
- * Different modes of gameplay
- * 30 different course plans
- * 10 ready-to-play courses
- * 7 different equine breeds to choose from
- * Customize horses with color palette
- * Ability to change camera view angle and altitude
- * Share pictures

There are several different modes of gameplay to challenge the player including Auto, Jump, Speed, and Jump Immediately (Advanced). In Auto-mode, the horse competes autonomously without any direction from the player. In Jump mode, the player tells the horse to prepare to jump an obstacle but the horse chooses the best moment. The player can also direct the horse to graze, roll, rear, kick, look or jump. Speed mode allows the player to direct the horse to walk, trot, or gallop through the course. The Advanced mode is the most challenging since the player choose the exact moment the horse needs to jump to clear the obstacle.

Although there are 10 ready-to-play courses and 30 different course plans, players can design an unlimited number of unique courses and immediately test them with their favorite horse. With the Course Design feature, players can customize the course size, its height, and its terrain. They can also add waypoints and choose from a variety of obstacles to challenge their horse. These obstacles include:

- * Vertical
- * Oxer
- * Triple bar
- * Cross rail
- * Wall
- * Hogsback
- * Filler
- * Open water
- * Liverpool
- * Joker

Initially, players have two horses to choose from. However, there are 7 different breeds of horses that can be selected to compete from the Breed menu. The breeds are Appaloosa, Arabian, Hanoverian, Mustang, Shire, Thoroughbred and Zebra. Players visit the horse's natural habitat to choose and interact with the animal. Each horse can be customized with

different colors and markings. From the Main Menu, players choose the palette wheel to select colors that are applied with a brush. The brush can be set to different sizes and opacities. Players can also zoom in and out to apply their colors.

The Smart Camera feature in Jumpy Horse Show Jumping offers a variety of settings for better gameplay. Tapping the camera icon on the right side of the screen provides access to advanced camera controls. Players can change the camera view angle and altitude by dragging left or right and pinching in or out to zoom. During gameplay, players can tap the photo icon on the left to take pictures of their horse jumping the obstacle course or playing in their natural habitat. Photos are automatically saved to the player's photo library.

"Our family's own horse inspired these equine-themed games," admits Dobromir Panchev, founder of Internet Reshenia LLC. "Until then, I had been coding mostly business applications. My sister, Siyka Petrova, is responsible for the richly detailed and beautiful animations. We think players will enjoy designing the show jumping course of their dreams. After all, Jumpy Horse Show Jumping was especially created for horse lovers just like us!"

Device Requirements:

- * iOS 6.0 or later
- * iPhone, iPad, and iPod touch
- * 96.9 MB
