

## CALX - Easy Personal Calculator for iPhone, iPad and iPod for Free

Published on 02/13/14

Leviteo today announces CALX - Easy Personal Calculator 1.01 for iPhone, iPad and iPod touch. Great for students, professionals or anybody in need of smart calculator, CALX is an easy to customize tool, simple in design, rich in functions and fast in calculations. Featuring Personal, Financial and Standard Modes, CALX has a built-in Share Mode so you could recommend it your friends and co-workers. Your math will become easy, elegant and pleasant.

Bialystok, Poland - Leviteo presents an easy to customize tool, simple in design, rich in functions and fast in calculations. Easy, fully editable iPhone, iPad and iPod touch calculator. Great for students, professionals or anybody in need of Smart Calculator. Control your business with CALX - Easy Personal Calculator. Your math will become easy, elegant and pleasant. Press Colour button to change CALX skin.

STAR Mode (personal mode):

Personal mode is especially designed for professionals who know exactly what they need and for those who value their time the most. This mode will give you a quicker and easier access to the most needed and recent functions. It includes additional mathematical operations such as Logarithmic functions, Trigonometric functions (sin, cos, tan), Random Number Generator, Mathematical Constant, Pi Constant and many more.

F is for Finance:

If you are an entrepreneur and have your own business, you would love Financial Mode. Make running your business easier with such functions as: PV (Present Value), FV (Future Value), NPV (Net Present Value), IRR (Internal Rate of Return), PMT, PPMT and many more.

S is for Standard:

Standard Mode perfect for basic math calculations like MC that Clears the Memory, M+ Adds the displayed value to the memory, M- Subtracts the displayed value from memory, MR Recalls the value stored in memory.

CALX has a built-in Share Mode so you could recommend it your friends and co-workers. We hope you consider CALX design and layout as intuitive and simple. If not please contact us and we would do our best to make CALX the best calculating tool.

"The scientific, minimalistic calculator that makes calculating ... simply an art"

Pricing and Availability:

CALX is available for Free in iTunes App Store. App size is 3.8 MB and works great on iPhones, iPads and iPods with min. iOS 5.1 installed.
