

myTuner Radio for Mac - 30,000 radio stations from all over the world

Published on 02/13/14

AppGeneration has released myTuner Radio app for Mac. The Mac version of myTuner Radio is the continuation of the acclaimed iOS streaming radio app, myTuner Radio (formerly known as iTuner Radio). This app, originally designed for iOS is now available for Mac and it's available on the Mac App Store! Mac users can now benefit from its main feature: 30,000 live radio stations from more than 120 countries! The app can be minimized, so Mac users can continue to work while they listen to the radio.

Porto, Portugal - AppGeneration has just released myTuner Radio app for Mac. The Mac version of myTuner Radio is the continuation of the acclaimed iOS streaming radio app, myTuner Radio (formerly known as iTuner Radio). This app, originally designed for iOS is now available for Mac and it's available on the Mac App Store! Mac users can now benefit from its main feature: 30,000 live radio stations from more than 120 countries!

The design of the app has been, of course, radically changed. Firstly, the app can be minimized, so that Mac users can continue to work while they listen to the radio. Secondly, even when not minimized, the app only occupies a fraction of the screen, which allows users to change radio stations very easily while working.

From sports, to news and music with all different kinds of radios stations, myTuner Radio is the best way to listen to radio on a Mac. Users can listen to the best radio stations of their country or of their homeland when they are abroad. They can also record their favorite radio programs, add radio stations to their favorites, or listen to a sample of the most played songs on the radio.

Feature Highlights:

- * Listen to the best local radio stations
- * Listen to radio stations from over 120 countries
- * Listen to more than 30,000 worldwide radio stations
- * Search by the radio station's name or by country
- * Record radio stations in real time
- * Add stations to the favorites list
- * Listen to the radio in the background

Language Support:

- * English

Device Requirements:

- * OS X 10.9 or later
- * 10.4 MB

Pricing and Availability:

myTuner Radio is available at \$7.99 USD for Mac OS X in the Mac App Store in the Music category.
