

Funny Animals Puzzle for iOS - Puzzle for Kids

Published on 02/15/14

Sky Leo today introduces Funny Animals Puzzle, its new puzzle game developed for iPhone, iPad and iPod touch. Designed for the youngest among us, Live Puzzles boasts a magical atmosphere created through a combination of whimsical art, wonderful music, and lively animations. When the player is finished putting together a puzzle, they'll find themselves rewarded by a whole show full of fireworks erupting excitedly on screen.

Moscow, Russian Federation - Funny Animals Puzzle by Sky Leo is a puzzle game for the youngest among us that boasts a magical atmosphere created through a combination of whimsical art, wonderful music, and lively animations. The game allows the choice of one of three difficulty settings that ensure a challenge appropriate to any child's capabilities.

When the player is finished putting together a puzzle, they'll find themselves rewarded by a whole show full of fireworks erupting excitedly on screen. Fireworks are interactive allowing the player to set them off with a simple gesture.

Using a solid challenge-and-reward model, Funny Animals Puzzle is aimed at helping children develop vital skills central to their growth and development, but not at the cost of fun. With a finely tuned balance of sufficient challenges and exciting rewards, the game boasts natural appeal for young minds and a substantial amount of replayability as well.

With a ten animals in total, it offers enough variety to keep a youngster's energetic mind busy for a long time. Couple that with the three aforementioned difficulty settings, and you get a considerable amount of content in a stout package. The game's interface is simple, ensuring that children of all ages are able to efficiently figure out how to put the puzzles together.
