

## Perfect Auto-Updating Photo Frame Using Unbound And Dropbox

Published on 03/06/14

Pixite LLC today announces a big update to their Dropbox photo management apps, Unbound for iPhone and Unbound HD for iPad. Both apps offer Dropbox users an elegant way to browse their photos and videos both online & offline, as well as other features like automatically syncing the Camera Roll to Dropbox, printing to Walgreens, collaging, & posting photos to Facebook and Twitter. Version 1.2 introduces auto-updating slideshows that allow users to play a slideshow on the iPhone or iPad and more.

San Diego, California - Pixite LLC, makers of popular photo apps for iOS like Tangent, Fragment, and Web Albums, announces a big update to their Dropbox photo management apps, Unbound for iPhone and Unbound HD for iPad. Both apps offer Dropbox users an elegant way to browse their photos and videos both online and offline, as well as other features like automatically syncing the Camera Roll to Dropbox, printing to Walgreens, collaging, and posting photos to Facebook and Twitter.

Version 1.2 also now features auto-updating slideshows that allow users to play a slideshow on the iPhone or iPad and update the slideshow dynamically from any computer linked to Dropbox. This is a fantastic feature for people who want to share photos with loved ones who have their iPads set up as photo frames using Unbound, as well as for businesses that want to update content dynamically from a remote computer to iPads used for displays in stores and kiosks.

"Unbound is a full-featured Dropbox client that lets you browse, manage, and share your photos and videos, and we're always looking for ways to make it more fun and useful," says Pixite co-founder Eugene Kaneko. "We hope that Unbound customers are able to more easily share their photos with people who matter using the new auto-updating slideshow, social network connectivity, and photo printing options."

Unbound version 1.2 features:

- \* Built-in AirPlay capabilities
- \* Passcode lock
- \* Photo and video syncing from the Camera Roll (Auto Uploads)
- \* Photo and video uploads in batches from the Camera Roll
- \* Background uploading
- \* Auto-updating slideshow
- \* Manage photo folders on Dropbox
- \* Print photos to AirPrint printers and to Walgreens
- \* Email and post photos to Facebook and Twitter
- \* Built-in collaging

Device Requirements:

- \* iPhone or iPad with iOS 6.0 or later
- \* 21.3 MB

Pricing and Availability:

Unbound and Unbound HD are \$2.99 each and available exclusively through the App Store in the Photo and Video category as separate iPhone and iPad apps.

Located in San Diego, California, Pixite LLC, was founded by Eugene Kaneko and Scott Sykora in 2009. Pixite creates photo apps for iOS devices like Web Albums, the most popular and highest rated paid Picasa Web Albums client on the App Store. In 2013, Pixite partnered with creative technologist Ben Guerrette to produce Tangent. Tangent was named App Store Best of 2013, featured in the New and Noteworthy section of the App Store in over 100 countries, chosen as Editor's Choice, and featured in the official Apple iPhone 5s launch video. Pixite also created LoryStripes in partnership with Italian graphic designer Laurent Rosset. Featured in over 111 countries. Most recently, Pixite developed Fragment, a revolutionary photo enhancement app that uses a series of uniquely prismatic overlays. Fragment reached #1 in the Top Paid Apps in the Photo and Video category for iPad and #2 for iPhone, and has been featured by Apple in 134 countries. All Material and Software (C) 2009-2014 Pixite LLC / All Rights Reserved. Apple, the Apple logo, iPhone, iPod and iPad are registered trademarks of Apple Inc. in the U.S. and/or other countries.
