SimpleTouch Software today releases Meditate 1.0, a stunning new iPhone app for meditators. Meditate helps meditators by chiming an authentic meditation bell at set periods throughout the meditation session. This removes the time-worry from the meditator, allowing them to go deeper with meditation. Meditate has some great features that distinguish it from other products of its kind.

Plainfield, Connecticut - SimpleTouch Software today releases a stunning new iPhone app for meditators called Meditate. A work of art interface makes this simple app stand far out from the other meditation application on the App store. Meditate helps meditators by chiming an authentic meditation bell at set periods throughout the meditation session. This removes the "time-worry" from the meditator, allowing them to go deeper with meditation. Meditate has some great features that distinguish it from other products of its kind.

Meditate features sophisticated battery management, perfect interruption handling, a smart restart feature, and automatic meditation tracking through a statistics tracker. Total time meditating, number of completed sessions, average time per day are all kept track of automatically for the meditator.

Feature Highlights:

- * Preparation time, periodic interval chime, and cool down
- * Meditation statistics
- * Smart restart
- * Interruption free meditation
- * Beautiful glass keypad interface.
- * Authentic meditation bell sound
- * Gorgeous background images

Designed and developed by Amber Star a long time meditator and Zen student. Meditate was developed through extensive UI design prototyping and testing to find the just the perfect interface. "I had to focus the app on the most essential elements to keep it easy to use, and elegant" says Amber Star. "I consider iPhone app development an art form, a science, and a craft, it is very rewarding to bring beautiful software to life".

Minimum Requirements:

iPhone or iPod touch 3.0 or later
