

PopChar X 6.5 - the versatile font utility just got better

Published on 03/20/14

Ergonis Software today announces PopChar X 6.5, an update to their award-winning tool for exploring fonts as well as finding and inserting special characters. With PopChar, thousands of special characters are only a few clicks away. Pop up the PopChar window, click the desired character, and the character appears in your current document right away. Version 6.5 introduces a new custom insertion technique, which leads to faster character insertion for many applications, and much more.

Hagenberg, Austria - Ergonis Software today is proud to announce PopChar X 6.5, a new release of the company's award-winning tool for efficiently exploring fonts as well as finding and inserting special characters. PopChar X 6.5 comes with a new custom insertion technique, which leads to faster character insertion for many applications. Among the improvements is also a work-around for a problem on Mavericks that caused the search field to be cleared while entering a search text. The new version furthermore solves a problem on non-English systems, where PopChar did not remember the previously selected layout.

Visit Ergonis Software's website to view the list of improvements and enhancements contained in this release and to download a trial copy.

PopChar solves a problem faced by every technologist and multi-lingual worker. Inserting special characters into application documents can be frustrating and results in a steady loss of productivity. With PopChar, thousands of special characters are only a few clicks away. Just pop up the PopChar window, click the desired character, and the character appears in your current document right away. Starting with PopChar 6, you can even take a new look at fonts from a designer's perspective - see a font preview, check out what a given text fragment looks like in a certain font, and print beautiful font sheets.

System Requirements:

PopChar X 6.5 requires Mac OS X 10.5.8 or newer and is fully compatible with OS X Mavericks (10.9).

Availability and Ordering:

PopChar X can be purchased securely on the Ergonis Software website. The upgrade to PopChar 6.5 is free for anyone who owns a valid license for PopChar X 6. Upgrade paths are available for owners of older licenses. See the company's web site for information about purchases, including enterprise licenses, volume discounts, and upgrade pricing offers. Instead of purchasing PopChar separately, customers can save money by ordering the Ergonis Productivity Bundle, which also includes the text expander Typinator and the keyboard shortcut helper KeyCue.
