Numer is the perfect combination between a fun app and a very useful app that can help you remember some of your phone numbers from your phonebook easier and faster. Depending on your needs and localization it can also cross check between different languages and words from german, french, spanish, italian and others.

Constanta, Romania - Lamobraty today is thrilled to announce the release and immediate availability of Numer 1.0, their new entertainment app designed for iPhone. Ever wondered how can you remember your phone number easier? Now there is an app for that! Have you noticed that your dial pad contains 3 or 4 letters assigned for each digit? Using that did you know that a phone number like +1 (xxx) 293-7663 can be remembered easier and faster as +1 (xxx) AWESOME? Don't waste any more time and check what your phone number stands for: it's free.

Numer is the perfect combination between a fun app and a very useful app that can help you remember some of your phone numbers from your phonebook easier and faster.

Did we catch your attention? There is more: having beautiful flat design and a delightful user experience, this app will tell you in no time what your phone number means, how can you remember it easier or if some of your phonebook's contacts have any funny phone number combination. Depending on your needs and localization it can also cross check between different languages and words from German, French, Spanish, Italian and others.
