

MacVide releases FlashVideo Converter 3.2 - Flash to Video Conversion

Published on 07/21/09

Macvide today announced FlashVideo Converter 3.2, an update to its professional Flash to video conversion utility for Mac OS X. The FlashVideo Converter is a powerful and versatile program for converting any flash video file to one of many popular video formats including iPhone/iPod mp4, Mobile .3gp and MPEG2. Converted movies can be saved for custom editing, or recorded for use in DVD players, or on iPod, iPhones and other mobile devices.

Saint Petersburg, Russia - Macvide today announced FlashVideo Converter 3.2. FlashVideo Converter is a powerful and versatile program for converting any flash SWF or FLV video file to one of many popular video formats including iPhone/iPod mp4, Mobile .3gp and MPEG2. Converted movies can be saved for custom editing, or recorded for use in DVD players, or on iPod, iPhones and other mobile devices. Download a free trial version of FlashVideo Converter today.

All of the most popular formats are supported, including MP4 (iPod Video), MOV, 3GP, MPEG, and helps bridge the gap between many video standards. And FlashVideo Converter is a great compliment to Apple's iLife Suite.

FlashVideo Converter can be used for a myriad of different purposes. Create a video or dvd collection by converting flash movies. Record the passing of favorite flash games to video files, and more. This makes the application particularly suited for converting Flash SWF and FLV files to MP4 and 3GP media content for mobile devices.

New in Version 3.2:

- * Updated capture engine
- * New watermark.
- * Lossless video render
- * Misc fixes.

Feature highlights include:

- * Encode Flash to Video to MOV format
- * Encode Flash to Video to MP4 iPod format
- * Encode Flash to Video to 3GP (3GPP, 3G2) format
- * mp4 iPod support for converter SWF and FLV files
- * Support Flash 6, Flash 7, Flash MX, Flash 8, Flash 9 compressed movie
- * Convert Movie Clips and ActionScript and ActionScript2
- * Movie Width and Height determination
- * Customizable dimensions for exported video
- * Auto Determination of Movie length
- * User can control Movie over Capturing

Minimum Requirements:

- * Mac OS X Version 10.4 Tiger or 10.5 Leopard
- * Universal Binary for PowerPC and Intel
- * 20 MB Hard Drive space
