

Meteovista Launches New iPad App Worldwide

Published on 04/02/14

Meteovista launches Meteovista HD 1.0.3 for iPad, now available worldwide in the App Store. Using weather forecasts compiled by an in-house teams of meteorologist experts, Meteovista HD is a truly unique app that is fully customizable to suit each user's needs. For everywhere in the world there is a choice of: the weather for today and tomorrow, rainfall radar, weekly overview, maps showing the weather, wind and weather ratings, conditions for outdoor activities and health.

Cupertino, California - Meteovista describes Meteovista HD for iPad as the best weather app available for the iPad. The app has been available in the Netherlands since June 2013 and has already been crowned the best weather app in the Netherlands. Receiving 400,000 downloads since launch, and winning the TMG public award for "best weather app", it has obtained a larger user-base and greater acclaim that leading competitors such as Yahoo Weather.

Customer's wishes:

During its development, with app-developer Touchwonders, taking account of users' wishes was paramount. Since the app is entirely made up of widgets, it can be completely configured in the way any user requires. With a choice of 6 different widgets the user decides what they want to see. For everywhere in the world there is a choice of: the weather for today and tomorrow, rainfall radar, weekly overview, maps showing the weather, wind and weather ratings, conditions for outdoor activities and health.

For more details, each individual widget can be opened to view a larger version and by using multiple walls (screens) users can add in as much real-time information as required.

Rainfall radar and rainfall forecast:

In addition to weather forecast information, Meteovista HD also includes a free rainfall radar. There is also rainfall prediction for every individual location. This lets users know exactly when it will rain and how much.

Device Requirements:

- * Compatible with iPad
- * Requires iOS 6.0 or later
- * 16.4 MB

Pricing and Availability:

Meteovista HD 1.0.3 is Free and available worldwide exclusively through the App Store in the Weather category. In the near future the smartphone app for Android and iPhone will also be available.
