

Soliant Consulting announces 24U Implementation Partnership

Published on 07/26/09

Soliant Consulting announces its exclusive U.S. implementation partnership for the new 24U Phone Companion, the only cross-platform telephony integration for FileMaker Pro. Developed by 24U Software, the 24U Phone Companion is a product which connects your phone system to your FileMaker database. It allows FileMaker Pro to interact directly with supported PBX telephone switches.

San Mateo, California - Soliant Consulting announces its exclusive U.S. implementation partnership for the new 24U Phone Companion, the only cross-platform telephony integration for FileMaker Pro. Developed by 24U Software, the 24U Phone Companion is a product which connects your phone system to your FileMaker database.

The 24U Phone Companion allows FileMaker Pro to interact directly with supported PBX telephone switches, which allows you to:

- * Make or receive calls without directly using your phone
- * Find a caller's contact information instantly
- * Automatically bring up a client's current project / ticket information as they call
- * Log incoming, outgoing and missed call information

The minimum requirements for the 24U Phone Companion are:

Mac OS

- * PowerPC G3 Macintosh
- * Mac OS X 10.4
- * FileMaker Pro 8

Windows

- * 300 MHz Pentium PC
- * Microsoft Windows 2000
- * FileMaker Pro 8

Although the 24U Phone Companion can work with FileMaker Pro 8 and 9, it is recommended that FileMaker Pro 10 be used. Though the plug-in is completely cross platform, some telephone switches may require the middleware to be installed on a Windows PC. A detailed list of supported PBX models and operating systems is listed in the documentation accompanying the plug-in. Support for other brands and models may be possible to add on demand. Please contact Soliant Consulting to check Phone Companion's compatibility with a specific telephone switch.

Pricing and Availability:

Licenses for the 24U Phone Companion start at just \$79 (USD) per user and \$945 per PBX Switch. For more details please visit Soliant's 24U Phone Companion web page.

About 24U Software

Since 2000 24U Software has been committed to production of easy to use software that makes working and developing with FileMaker Pro and AppleScript faster, simpler and cheaper. 24U Software is ISO 9001:2000 certified for design, development, customization and implementation of software.
