

Noteboom Productions introduces Tutor for Pages for Mac

Published on 04/29/14

Noteboom Productions introduces Tutor for Pages, their latest video tutorial, now available on the Mac App Store. With Tutor for Pages, the user watches videos to learn how to use Apple's latest version of Pages for the Mac. The video tutorial consists of 66 easy-to-follow video chapters on various subjects. Everything the user needs to create, edit, and share their document created in Pages. Each video chapter covers a specific feature and averages five minutes in length for easy comprehension.

Holland, Michigan - Noteboom Productions is proud to announce the release of Tutor for Pages, their latest video tutorial, now available on the Mac App Store. With Tutor for Pages, the user watches videos to learn how to use Apple's latest version of Pages for the Mac. The video tutorial consists of 66 easy-to-follow video chapters totaling over four hours on various subjects. Each video chapter covers a specific feature and averages five minutes in length for easy comprehension.

The videos cover everything from getting around, to creating page layout documents and word processing documents, to adding and styling text, to creating tables and charts, to sharing and collaborating. Everything the user needs to create, edit, and share their Pages document.

Features:

- * 66 Easy-to-Follow Videos on the latest version of Pages
- * Users can take notes while watching the tutorial
- * Full Screen support
- * All the videos are downloaded to the users computer
- * No Subscription or In-App Purchase required as all the videos are included in the tutorial

The tutorial includes easy-to-follow videos showing the user how to:

- * restore previously saved versions of your document
- * switch from page layout documents to word processing documents
- * wrap text around images and shapes
- * style text, charts, tables, shapes, and media
- * paste and match style
- * create interactive charts
- * draw your own shapes with Draw with Pen
- * make colors transparent with Instant Alpha
- * add comments to text, cells, another objects
- * collaborate with iCloud
