

## **eWeather HD 3.1 adds photorealistic animations and future weather maps**

Published on 05/05/14

Elecont LLC today announces eWeather HD 3.1, an update to its leading weather forecast tracking tool for iPhone and iPad. eWeather HD puts everything you need to know to prepare for a summer season in the palm of your hand. This app displays both radar and satellite images, beach water temperatures, tornado and thunderstorm weather alerts and much more. Version 3.1 introduces new photorealistic weather animations, "future weather" maps, improved support for Twitter and Facebook.

Saint-Petersburg, Russian Federation - Elecont LLC today is proud to announce the release of eWeather HD 3.1, an update to its leading weather forecast app for iPhone and iPad. With new animated effects, huge improvements to the weather maps and better performance, eWeather HD 3.1 is the biggest release ever. eWeather HD puts everything you need to know to prepare for a summer season - in the palm of your hand. It combines ten day and hourly weather forecasts from multiple sources with a beautiful radar and satellite images and unique "weather wheel" interface. eWeather HD also provides water temperature at beaches around the world, hour-by-hour UV levels, data from buoys, earthquakes, weather alerts for U.S.A. and Europe and much more.

Summer is the time of year when many things change - including the weather. Thunderstorms cause most of the severe summer weather. They can bring lightning, tornadoes and flooding. New eWeather HD provides access to the most relevant weather forecasts, weather alerts, marine and seismic data. Prepare for storms, floods, and tornadoes as if you know in advance they are coming, because in the summer, they very likely will.

Summer is a great time to travel. In reality trying to take a vacation without planning ahead rarely works out that well. This is especially true if you are going to another country. Discover your best beach vacation spots with eWeather HD ! eWeather HD is the most complete weather app that provides all of the necessary information about weather and water on worlds popular beaches and resorts. Explore unique interactive map to find the best place to spend a vacation.

Some of new app features include:

- \* New photorealistic visual effects for current weather conditions and forecasts
- \* Animated 24-hour and 10-day weather forecast maps (available worldwide)
- \* Animated imagery loops of cyclones and tropical storms for Europe (also available in U.S.A. and Japan)
- \* Faster download speed
- \* Improved support for Twitter and Facebook
- \* Romanian language
- \* New Japanese translation
- \* Lots of other improvements and fixes

Supported Languages:
