

Flip HTML5 Launches Efficient Digital Publishing Software For Mac Users

Published on 05/08/14

FlipHTML5 Software Co., Ltd today highlights their new Flip HTML5 for Mac application. Create responsive CSS3 jQuery and HTML5 FlipBooks from PDF files. Completely DIY your page flipping book with a variety of pre-designed templates, and adjust the templates with custom logo, backgrounds, colors, buttons, navigation options and so much more. Users can add animations, interactivity and rich web content - all in real-time and all without writing a single line of code.

Hong Kong, China - FlipHTML5 Software Co., Ltd today highlights their new Flip HTML5 for Mac application, a renowned name for all those who are looking to convert their PDF files to online publications using the Macintosh operating system. Those who exclusively work on the MAC OS need to know that the digital publishing software offered by Flip HTML5 is excellent and can truly serve the purpose and need. It has been designed keeping the need of MAC users in mind.

The software runs very fluently on Apple products and one will be able to add rich animations and some of the best effects on the PDF file and even the conversion are extremely easy and reliable. When the files are converted, there are various factors that have to be taken into consideration and it is the Flip HTML5 MAC software which will make it possible.

One can check out the reviews that the software has managed to get as they are hugely impressive. The company is dedicated in its field as they are constantly trying to improve their services even further. One has the provision to either opt for the business account or the personal account as well.

The business account comes at a premium rate, but the ease with which the products can be promoted and circulated is much better and will end up justifying the cost that is incurred. Those who have a limited budget and don't have ample money to spare, they can check out Flip HTML5 basic plan as it has no charges and offers basic facilities which can be enough for personal use.

There are various details that one can check and based upon these facts, it is easier to come down to the right conclusion. Those who want to know more about the company can visit Flip HTML5 online and check out the details of the MAC version. One will not face any type of problems as far as the Mac OS is concerned.
