

Wuzzles for Smart Phones

Published on 05/22/14

XLabz Technologies releases a new version of their widely popular Word Puzzle Game: Wuzzles. Wuzzles presents users with a puzzle that is a combination of words or pictures. With numerous levels and twists, Wuzzles does an excellent job in putting ones creative and vocabulary skills to the test. This new update comes packaged with 10 more levels with 500 new Wuzzles. Wuzzles is deeply integrated with Game Center and is available for iOS devices.

Pondicherry, India - XLabz Technologies Pvt. Ltd, a leading provider of cutting edge mobile applications, just announced an update to their widely popular Word Puzzle Game: Wuzzles. With numerous levels and twists, Wuzzles makes users think out of the box to decipher the hidden meaning behind each of the word puzzles. This game does an excellent job in putting ones creative and vocabulary skills to the test. This new update comes packaged with 10 more levels with 500 new Wuzzles which adds up to a total of 1000 mind bending word puzzles to crack.

Game Play and Features:

Wuzzles presents users with a puzzle that is a combination of words or pictures. The answer to the puzzle could be a common word or a catch phrase. The trick is the answer lies in the way in which each element of a wuzzle is arranged. The aim of the game is to decipher the hidden meaning that lies jumbled within a set of random letters and/or pictures.

The game also offers a variety of helpful lifelines like, 'Remove a letter', 'Reveal a letter', and more and also gives users the option to challenge their friends in various social platforms to try their hand at guessing a particular wuzzle. Wuzzles allows users to compare their scores online with an integrated leader board. Users are in for a surprise as Wuzzles packs in some cool achievements on the road to becoming a "Wuzzle Legend". With 10 more new levels and puzzles that are harder to crack, Wuzzles is keeping things more interesting. Wuzzles has also introduced a whole new genre of picture wuzzles which really turns it up a notch.

Device Requirements:
