London, United Kingdom - Inhouse Production is pleased to introduce Prism Your Screen - HD, simply one of the best Wallpaper, thematic, prismatic, home & lock screen app among all apps in the App Store. Every design in the app is unique, classic and high definition.

The way the app is designed is very clever using the Prismatic concept with iPhone screens. The name and the designs of the App are based on Prismatic concept. I really recommend this app to all the users in the app store.

Change the wallpaper of your home & lock screen by applying Prismatic theme on it. Tap on your screen to add your name, slogan, reminder, note, choose your favorite text, send it to your Facebook, or post on Facebook Friends, Twitter, Save to Photo Library & Email.

Those are nice features to use with app; "Prism Your Screen" (General Physics) a transparent polygonal solid, often having triangular ends and rectangular sides, for dispersing light into a spectrum or for reflecting and deviating light.

You don't need any more to try to set a wallpaper you prefer and then go back to Home Screen or Lock Screen to see how it looks one by one. Prism Your Screen has an instant preview feature for each screen that allow you to quickly preview your new wallpaper or lock screen with Tab bar, Status bar, Clock, Time, Date, Hour, Lock Key and Camera button.
