

Migrate Old Mailboxes with the All New Stellar Mail Converter for Mac

Published on 06/30/14

Stellar Data Recovery today releases Stellar Mail Converter, their all-in-one email migration utility for Mac OS X. Stellar Mail Converter is a quick and efficient tool that helps users migrate their emails from one platform to another. You can easily convert mailboxes from Apple Mail, Thunderbird, PostBox and Outlook 2011 Backup File 2011 to Apple Mail and Outlook 2011. The converted mailboxes can be easily imported in Apple Mail / Outlook 2011 to view complete mail body, including attachments.

Metuchen, New Jersey - Stellar Data Recovery, a global leader in providing Mac disk utilities and management tools, today launched 'Stellar Mail Converter,' their all in one email migration utility for Mac OS X. Stellar Mail Converter is a quick and efficient tool that helps users migrate their emails from one platform to another. You can easily convert emails from mail clients like Apple Mail, Thunderbird, Postbox to Outlook 2011.

"Over time, consumers feel the need to change their mail clients for a variety of reasons like better features, ease of use & functionalities. To make this tedious task of converting emails from one mail client to another simple and efficient, we have introduced Stellar Mail Converter. It is all that a user requires to effortlessly migrate important email conversation from one mail client to another. It supports conversion for multiple mailboxes which makes the tool versatile", said Mr. Sunil Chandna, CEO Stellar Data Recovery

With Stellar Mail Converter you can convert mailboxes from Apple Mail (MBOX, EMLX), Thunderbird (MBOX), PostBox (MBOX) and Outlook 2011 Backup File 2011 (OLM) to Apple Mail (MBOX) and Outlook 2011 (RGE). The converted mailboxes can be easily imported in Apple Mail / Outlook 2011 to view complete mail body, including attachments keeping the folder organization intact.

Pricing and Availability:

Like most other tools from Stellar, 'Stellar Mail Converter' too is available as try-before-buy software which is available for free download from Stellar Data Recovery online. This version will show you the preview of converted mails. However, to avail all features, full version can be purchased at an introductory price of \$39 (USD).
