Kowloon, Hong Kong - Dim Sum Lab today is proud to announce the release and immediate availability of Sir Tapalot 1.0.1, their latest game for the iOS platform. Fearlessly dubbed "Sir Tapalot," this new gaming app comes not long after Dim Sum Lab's innovative "What The Foto?!" social photo game, but heeds to the lone gamer's call for an easy, pick-up-and-play experience. Sir Tapalot will make its mark on the iOS platform for being insanely addictive, intuitive, and irreplaceable on your home screen.

Shoot across the screen on an 8-bit soundtrack while you poke your little sword at morbidly obese sprouts, sock puppets, alien species, badass ninjas, and other familiar fear-mongering characters. Reach a minimum level to tap out residents of the Evil Castle for more addictive gameplay.
