New York, NY - Steven Zweier today announced the release of Num Nuts 1.0, his new game for iPhone and iPod Touch. Num Nuts is an application that challenges you to add up numbers as quickly as possible to generate high scores. The Num Nuts application is not only a fun application that should be on everyone's iPhone and iPod touch it is also educational. This app will have your children adding numbers together to create high sums for fun rather than homework.

### Featured Highlights:

- \* High score system
- \* Smooth gameplay
- \* Sleek graphics
- \* Easy to use
- \* Tons of fun

Forget your old boring games like sudoku, the morning crossword or the jumble. Play Num Nuts and get your day off to an exciting start. Every time you start a new game the numbers change. You will NEVER play the same game twice. Using a random number generator from 1-9 for the main board and a random number generator from 1-25 for the target value this game challenges you to react quick and add even quicker.

If for some reason you find that you cannot create the target number Num Nuts has you covered. Simply give the iPhone and iPod Touch a gentle shake and the target number will change. When adding up to a number just drag your finger over a possible solution (in any direction) and lift when you've selected the correct answer. If the answer is correct the target number will change as will any numbers you used in your calculation.

### System Requirements:

- \* iPhone or iPod Touch 2.2 or later.

### Purchase Information:

- \* Num Nuts 1.0 is currently selling at \$0.99 (USD).
