

## Voice Recorder HD 7.2 Featured With M4A Converter and Update Trimming

Published on 07/16/14

eFusion today releases Voice Recorder HD 7.2, an update to their highly rated voice recorder app for iOS with M4A Converter using ALAC technique and update Trimming feature. This is the perfect audio recorder for audio professionals, sound engineers, journalists, lecturers, students or anyone else who needs to manage voice memos, Voice Recorder HD offers a better way to record HQ audio, organize and share voice memos with simplicity.

Saitama, Japan - Fusion today is pleased to announce the release of Voice Recorder HD 7.2 with M4A Converter using ALAC technique and update Trimming feature. Voice Recorder HD is a better way to record HQ Audio, Organize and Share Voice Memos With Simplicity.

Voice Recorder HD is the HQ audio recorder for iPhone and iPad. It is the #1 downloaded voice recording application for iOS including USA and Japan. Also featured by Apple as "What's Hot" in all category, listed in 2011 Rewind and BEST OF 2013 Japan.

The new M4A converter allows users to compress large HQ Audio File(.WAV) into M4A with minimum quality loss. The converter uses the free Apple Lossless Audio Codec (ALAC) to assure minimum quality loss and guarantees high quality.

With update Trimming feature user can delete selected part of voice memo as well as delete unselected part from voice memo.

Voice Recorder HD featured "Audio Boost", powered by Syfx Tekworks, Orinda, CA. It is the feature to reduce noise and boost intelligibility of speakers who are very distant from the microphone or speaking very softly.

Voice Recorder HD also efficient to handle interruption from other apps or incoming phone call when recording. Users data never loss in this case.

Voice Recorder HD also features:

- \* Mono and stereo recording with configurable audio quality
- \* Allow External and Bluetooth mic recording
- \* Dropbox uploading and iCloud sharing
- \* Audio files Export/Import over the USB/WiFi using iTunes File Sharing
- \* AirDrop and doc interaction using Open In feature
- \* Supports any OS (Mac,Windows,Linux, etc) to playback
- \* Accessibility support for disabled person

About Syfx Tekworks:

Syfx Tekworks is an Audio IP and software company with unique and patented high-fidelity Audio technology.

Device Requirements:

- \* iPhone, iPod touch, and iPad
- \* Requires iPhone OS 5.1 or later
- \* Universal Application
- \* 9.7 MB
