

MathMagic Personal Edition joins the 3rd promotion of TheMacBundles

Published on 08/10/09

MathMagic Personal Edition for Mac OS X has been included in TheMacBundles August bundle, along with 10 other great Mac applications. MathMagic is a multi-purpose equation editor for a broad range of users, helping students, professors, engineers, editors write mathematical equations and symbols fast for their math communication and publications. All Software titles included in TheMacBundles come with the same level of customer support and the same full featured product.

Vancouver, Canada - InfoLogic has announced the participation of MathMagic Personal Edition for Mac OS X in the third TheMacBundle promotion. With a focus on ease-of-use and high quality output, MathMagic is a multi-purpose equation editor for a broad range of users, helping students, professors, engineers, editors write mathematical equations and symbols fast for their math communication and publications.

For only \$49.95 (USD), 10 other great software titles are included in this special bundle along with MathMagic Personal Edition.

- * A Better Finder Rename
- * BluePhoneElite
- * Keyboard Maestro
- * Letter Opener
- * Print It!
- * TaskTime
- * ViewIt
- * Web Confidential
- * CosmoPod
- * DeepVacuum

All Software titles included in TheMacBundles come with the same level of customer support and the same full featured product. Also, all of the programs included in a bundle on TheMacBundles are the latest versions of the software. The bundle is backed up by a 30-day money back guarantee.

TheMacBundles also offers a few other weekly specials along with this bundle. Multiple or combined purchases are eligible for an additional discount using a coupon code. The latest weekly specials and coupon code can be found on TheMacBundles.

Fully working trial version of MathMagic Personal Edition and other MathMagic products can be downloaded from MathMagic download page.
