

Wavefront International releases Dog Guide 1.0 for iPhone/iPod touch

Published on 08/13/09

Colorado based Wavefront International has released Dog Guide 1.0, the easiest, most versatile Dog Breed reference guide for the iPhone and iPod touch yet. Specifically developed to take advantage of the iPhone's unique capabilities and interface, Dog Guide features easy scrolling through traits and behaviors on over 170 breeds. In addition, the Dog Guide calculates your dog's age fast and accurately using the most sophisticated algorithm available.

Boulder, Colorado - Wavefront International has released Dog Guide 1.0, the easiest, most versatile Dog Breed reference guide for iPhone and iPod touch ever. Specifically developed to take advantage of the iPhone's unique capabilities and interface, Dog Guide features easy scrolling through traits and behaviors on over 170 breeds. In addition, the Dog Guide calculates your dog's age fast and accurately using the most sophisticated algorithm available.

Arguably one of Dog Guide's most inventive features is its ability to quickly view a wide range of helpful dog breed characteristics in an easy to understand visual format. What size will a Golden Retriever reach as an adult? Are beagles good with other pets? And let's see if Cavalier King Charles Spaniels are barkers or not.

Interested in knowing what your dog's age is in human terms? It is widely agreed, when calculating your dog's age in human years, the 7x rule is not accurate. WFI's Dog Guide uses the most sophisticated algorithm available to quickly calculate your dog's age and is presented in clear, concise format both numerically and in chart form.

Feature Summary:

- * Easily scroll through traits and behaviors on over 170 breeds
- * 99% of AKC recognized breeds included
- * Internal database, no internet access required
- * Determine your dog's age fast and accurately. Simply select your dog's breed and age, your dog's age is calculated and displayed right on your iPhone or iPod touch
- * Most sophisticated age calculation algorithm available (far more accurate than the traditional 7x rule)
- * And More

A must have pocket reference when shopping for your next K9 companion. Dog Guide is simple, easy to read and understand. Dog breeds are sorted by category (sporting, herding, working, etc) for fast searching for a particular breed type. What's more, dog breeds are easily identified by clear, easy to view images.

The application sports visually appealing and dynamic charts for displaying dog age. Simply select your dog's age in years and months by swiping the convenient scroll wheel; your dog age is calculated using the most advanced algorithm available then displayed right on your iPhone or iPod touch.

System Requirements:

- * Compatible with iPhone and iPod touch (2nd generation)
- * Requires iPhone 2.2 software update
- * iPhone and iPod touch OS 3.0 Ready

Pricing and Availability:

Dog Guide 1.0 for iPhone is only \$0.99 (USD) and available exclusively through Apple's App Store.
