

Spend Stack - Available Now - Simplifies Spending by Finding Sales Tax

Published on 08/21/14

Dreaming In Binary today introduces Spend Stack 1.0, their debut financial app exclusively for iPhone devices. Spend Stack makes shopping and managing a budget more efficient by automatically looking up local sales tax in the area while keeping a running total of how much money has been spent. Each list, called a stack, can be tailored for any scenario. Users can apply tax to items, categorize them, or just make a quick stack to see how much eating out will cost at a restaurant after tax.

Ozark, Missouri - Today, Dreaming In Binary is proud to announce the release and immediate availability of Spend Stack 1.0, their debut financial app exclusively for iPhone devices. Spend Stack makes any shopping list or budget efficient by automatically detecting user's local sales tax rate within the area. Each list, which are called stacks, can be tailored for any scenario. Users can selectively apply tax to items, categorize them, or just make a quick stack to see how much eating out will cost at a restaurant after tax.

Features:

- * Local sales tax is figured in by location automatically
- * Customize unlimited stacks for any financial need (grocery list, holiday shopping, etc.)
- * iCloud syncs everything to all iOS devices
- * Several unique themes available to change the look of a stack
- * Familiar, gesture driven design

Using iCloud, stacks can also be synced across iOS devices. This can be used to share a holiday shopping list with family, birthday lists, and more. Using a simple and familiar gesture based design, Spend Stack is built to be picked up and used right away without a learning curve.

Device Requirements:

- * iPhone, iPad, and iPod touch
- * Requires iOS 7.0 or later
- * 18.1 MB

Pricing and Availability:

Spend Stack 1.0 is \$1.99 USD (or equivalent amount in other currencies), available in the United States, United Kingdom, Australia, Mexico and Canada, and exclusively through the App Store in the Finance category. For interviews or other general inquires, please contact Jordan Morgan, founder of Dreaming In Binary.
