

Children's Music Shines In New Kids App: Preschool Musical

Published on 08/22/14

Children love music and parents will enjoy watching them singing along to this app. California based Fairytale Studios announces Preschool Musical for iOS, its new educational app featuring a special combination of musical gameplay that has never been seen before on a mobile device. There are hours full of exploration, perfect for entertaining restless toddlers. Parents can feel relaxed as their child engages in a tasteful musical and learning-oriented experience.

San Francisco, California - Children love music and parents will enjoy watching them singing along to the app. Preschool Musical, the new app by Fairytale Studios has a special combination of musical gameplay that has never been seen before on a mobile device. The inclusion of learning professionals sets Preschool Musical apart from the competition; it is a musical app designed for children by the experts.

The specialty of the game comes with a unique combination of gameplay and musical elements. The game revolves around searching for lost items throughout the musical scenes. The lost and found is endless in nature and everything on the screen is touchable and fully interactive all of the time. Preschool Musical features six professionally recorded songs; Row your boat, I love the Mountains, Around the Mulberry Bush, Rub A Dub Dub, Itsy Bitsy Spider and Old McDonald. There are hours full of exploration, perfect for entertaining restless toddlers. Parents can feel relaxed as their child engages in a tasteful musical and learning-oriented experience.

Preschool Musical is perfect for early learning and created for a wide range of ages, specifically ages 1-6. The gameplay appeals to many different ages as the design concept is one thought out by preschool teachers and learning professionals. Older children will be challenged searching for the lost objects while young toddlers can listen to music and tap on the screen with no agenda. This is a game changer for children as it allows scenes to expand and gives the child an opportunity to explore even while searching for objects. Preschool Musical is the first of its kind and needs to be experienced firsthand to truly appreciate the subtleties of its design.

Fairytale Studios is an industry leader in children's learning applications and interactive books. Preschool Musical is an installment of the preschool learning series. The other apps in the series are Preschool Playhouse, Preschool Safari, and Preschool Aquarium. The sound in all of Fairytale Studios work is professionally recorded in the studio and designed especially for early learning.

Preschool Musical 1.0 is available now for all devices on the App Store, Google Play and Amazon App Store. There are two versions of the app, a free and a paid version. The paid version comes with absolutely no advertisements and is our recommended download. However, everyone loves a free app and it is great to get an excellent app for free, this is why the option of having small advertisements is in the hands of the parent for making the purchase.
