Via Pavtube TOD Converter for Mac 1.2, users can deal with MOD and TOD files with great ease.

Mt Vernon, USA - Pavtube Studio today is pleased to announce the release of Pavtube TOD Converter for Mac 1.2. This program is specially designed for converting TOD and MOD files generated by certain camcorders like JVC, Canon, and Panasonic into other video and audio formats like MP4, MPG, AVI, MP3, FLAC, MKV, OGG, M4A, WAV, 3G2, VOB, SWF, FLV, MOV, etc.

on Mac OS X. Via Pavtube TOD Converter for Mac 1.2, users can deal with MOD and TOD files with great ease.

Pavtube TOD Converter for Mac 1.2 enables users to select video lengths, remove black edges, reset the screen size, add watermarks, replace original audio, as well as make use of special effects like aged film, simple gauss blur, and so forth, so that users can let videos show their personal characteristics through video editing. In addition, Pavtube TOD Converter for Mac 1.2 adopts advanced audio-video sync technology and separate built-in codec, which not only avoids audio-video out of sync issues, but also ensures a green and safe codec environment.

Feature highlights:

* Various output formats -

Support various output formats including MP4, MPG, AVI, MP3, FLAC, MKV, OGG, M4A, WAV, 3G2, VOB, SWF, FLV, MOV, etc.

* Advanced audio-video sync technology -

Perfectly convert TOD and MOD files without any audio-video out-of-sync problem.

* Trim and Crop -

Use "Trim" function to select video lengths, use "Crop" function to cut off black edges or unwanted parts of a video.

* Add different watermarks -

Text, image, GIF animation, and video are all allowed to add as watermarks.

* Merge into one file and Audio Replace -

Check "Merge into one file" to combine multiple video files into a single file, and choose a specified audio to take the place of the original one.

* Specific effect model -

Specific effect model like Simple gauss blur, Simple laplacian sharpen, Aged film, Flip color, and Invert are all available.

* Fast conversion speed -

Conversion speed is up to 2 times faster than other similar programs.

* Built-in Codec -

The built-in codec system provides users with a more stable and safer codec environment.

System Requirements:

prMac: Publish Once, Broadcast the World :: <http://prmac.com>
