

## **Comeks Shorts 1.0 Released - Avatar Messaging application for iPhone**

Published on 08/19/09

Helsinki based company Comeks today released Shorts 1.0 for iPhone and iPod Touch.  
Comeks

Shorts is an application for image messaging with custom avatar. Create your own avatar and start sending fun Shorts messages. Modify body parts, mood, props and background and type your message in the speech bubble. When you're ready, save it to photos or share via Twitter, Facebook, Tumblr or email. It's free, super easy and makes your status updates and greetings more expressive and fun.

Helsinki, Finland - Comeks today released an iPhone application Shorts 1.0 for image messaging with custom avatar. With Shorts you can create your own avatar and start sending fun Shorts messages! Modify body parts, mood, props and background and type your message in the speech bubble. When you're ready, save it to photos or share via Twitter, Facebook, Tumblr or email. It's free, super easy and makes your status updates and greetings more expressive and fun.

You can compose your avatar from multiple pieces and choose clothes, skin color and hairstyle, accessories and background image from tens of options. Everything is functional directly from the app, and no registration is needed. Sharing to Facebook happens through Facebook connect, sharing via Twitter and Tumblr is using their public APIs and email sharing is using the native mail client.

Comeks has years of experience in making user generated content tools for different mobile platforms. The iPhone application Shorts is a very simple and easy to use, yet funny and potent. The core of the user experience is playful social interaction that is facilitated through an intuitive user interface.

Minimum Requirements:

iPhone or 2nd Generation iPod Touch 3.0 or later

Pricing and Availability:

Comeks Shorts 1.0 is available for free in the iPhone Appstore, and works on iPhone and iPod Touch devices with 3.x firmware.
