

Applesource Software releases TimeNet Law 1.9.9h

Published on 08/23/09

AppleSource Software has released an update to TimeNet Law, their time and billing solution for attorneys and others looking for a Timeslips replacement for Mac OSX. TimeNet Law is a full-featured suite for attorneys, private investigators, and other professionals who need total control over clients, matters, slips, billing, trust and escrow accounts, automatic payments, statements, and more. This update will be free for all licensed TimeNet Law users.

Medford, OR - AppleSource Software, maker of popular business applications and internet utilities for Mac OS X, has released an update to TimeNet Law, their time and billing solution for attorneys and others looking for a Timeslips replacement for Ma. This update will be free for all licensed TimeNet Law users.

TimeNet Law is a full-featured suite for attorneys, private investigators, and other professionals who need total control over clients, matters, slips, billing, trust and escrow accounts, automatic payments, statements, and more. While TimeNet Law is incredibly powerful, its simple user interface makes learning TimeNet Law very quick.

Feature Highlights:

- * Built for MacOS X (Universal Binary)
- * Incredibly Easy to Learn Interface
- * Powerful Case Management
- * Track Timekeepers, Clients, Matters, Payments, Trust & Escrow Accounts
- * Document Everything with Detailed Note Support
- * Automatic Bookkeeper and One Click Billing
- * Global Control of Timers via the Menu Bar
- * Backup Scheduler Keeps Data Safe
- * Automatic rounding of time to nearest 6, 10, 15, 30 and 60 minutes
- * Fully Networkable

This 1.9.9h release fixes several small issues with compatibility on Mac OS X 10.4 and refines the user interface to follow Aqua Human Interface Guidelines.
