

750 Gigabyte Overnight Hard Drive Upgrade For MacBook and MacBook Pro

Published on 08/24/09

TechRestore, Inc. announced today that they have begun offering the first 750 Gigabyte Overnight Drive Upgrade service for MacBook and MacBook Pro systems. This upgrade includes data transfer and free shipping. The new 750 Gigabyte laptop drive is compatible with 13 and 15 inch MacBook and MacBook Pro Unibody systems and the original MacBook Pro 17" models. TechRestore's high-speed overnight hard drive upgrade service is completed within 24-hours.

Concord, California - TechRestore, Inc. announced today that they have begun offering the first 750 Gigabyte Overnight Drive Upgrade service for MacBook and MacBook Pro systems that includes data transfer and free shipping. Break the storage barrier with the new 750 Gigabyte laptop drive that is compatible with 13 and 15 inch MacBook and MacBook Pro Unibody systems and the original MacBook Pro 17" models.

TechRestore's high-speed overnight hard drive upgrade service is completed within 24-hours and includes installation of the new drive into the users MacBook or MacBook Pro, data transfer from the old hard drive onto the new drive and Free return shipping. An exact clone of the users data is transferred to the new drive ready for immediate use when their Mac is returned to them.

Clients also have the option of having their old hard drive installed into an external enclosure for an additional \$39, which works great with the revolutionary Time-Machine backup feature in Mac OS 10.5 Leopard. Nationwide door-to-door pickup service is available for the upgrade as well as local pickup from one of over 2000 TechRestore local pickup centers throughout the United States.

"We continually receive requests for larger storage upgrades from our clients, said Shannon Jean, Founder and President of TechRestore. "The new 750 Gigabyte drive is perfect for storing massive amounts of personal data, applications, video, music and more. We are very excited to bring this new service to our clients."

The upgrade is available immediately with pricing as follows:
Overnight 750 Gigabyte MacBook and MacBook Pro Unibody Hard Drive Upgrade Service with Data Transfer and Free Return Shipping: \$299 (USD).
