

## **eWeather HD 3.2 adds live weather clock widget to iOS 8 Today screen**

Published on 10/10/14

Elecont LLC today announces eWeather HD 3.2, an update to its all-in-one weather forecast app for iPhone and iPad. New version introduces an unique widget - live weather clock for iOS 8 Today screen. New widget puts everything you need to know to prepare for a fall season - in the palm of your hand. The app also includes lots of other improvements and fixes. eWeather HD is the most complete weather app that provides all of the necessary information about weather.

Saint-Petersburg, Russian Federation - Elecont LLC today is proud to announce the special release of eWeather HD 3.2, an update to its leading weather forecast app for iPhone and iPad. With new iOS 8 widget, improvements to the graphics and better performance, eWeather HD 3.2 is the biggest release ever. eWeather HD provides all the weather info you need in one place, easily customized to track conditions for the places you care about. Get live temperature on your home screen, check radar images and view historical details so you're always aware of weather on the way.

eWeather HD combines 10-day and hourly weather forecasts from multiple sources with a beautiful radar and satellite images and unique "weather clock" interface. In addition to various weather data the app provides water temperature at beaches around the world, hour-by-hour UV levels, data from buoys, earthquakes, severe weather alerts for U.S. and Europe and much more.

Autumn is the time of year when many things change - including the weather. Thunderstorms and typhoons cause most of the severe autumn weather. They can bring lightning, tornadoes and flooding. New eWeather HD provides access to the most relevant weather forecasts, weather alerts, marine and seismic data. Prepare for storms, floods, and tornadoes as if you know in advance they are coming, because in the summer, they very likely will.

Autumn is a great time to travel. In reality trying to take a vacation without planning ahead rarely works out that well. Discover your best beach vacation spots with eWeather HD ! eWeather HD is the most complete weather app that provides all of the necessary information about weather and water on worlds popular beaches and resorts. Explore unique interactive map to find the best place to spend a vacation. We're sure you will enjoy using the app and that it will meet all your needs and expectations for weather information.
