

King of Booze - Best Binge Drinking Tool Since Alcohol

Published on 10/16/14

Drinking games are nothing new, in fact they even existed in Ancient Greece. We're no longer in Ancient Greece, but the drinking must go on! That's why developers at Daygames created King of Booze, an innovative drinking game for Android and iOS devices. King of Booze has the power to turn any dull party into a night worth remembering. It doesn't matter how you're feeling at the beginning of the night, King of Booze is the ultimate ice breaker that escalates any party.

Zagreb, Croatia - Drinking games are nothing new, in fact they even existed in Ancient Greece. We're no longer in Ancient Greece, but the drinking must go on! That's why developers at Daygames created King of Booze, an innovative drinking game for Android and iOS devices. King of Booze has the power to turn any dull party into a night worth remembering. It doesn't matter how you're feeling at the beginning of the night, King of Booze is the ultimate ice breaker that will turn everyone's frown upside down, starting from the trailer. Developers spent hours crafting a mixture of challenges that make you do anything from slapping, kissing, impersonations, singing, dancing, calisthenics to public shame, Facebook shame, morning after shame and other types of activities better left unrecorded.

In essence, King of Booze is a board game that's best used as a manual to have a good time. Make sure you use it with caution. Most of the game takes place off screen where you drink your favorite drinks and do picture worthy challenges with your friends. Game features an intuitive modern design, cute cartoon characters placed in an endless board that has you circling the globe through different environments.

Daygames even goes the extra mile to motivate you to party with Trophies, Alco-tests and, most importantly, Custom Challenges. "We know that our challenges could never meet the preferences of everyone, so we gave you the power to create your own. Be careful, with great power comes great finger pointing and blaming others for your stupid behaviour," says Boris Mikic, lead programmer of Daygames.

King of Booze is regularly updated for the last two years, so it's no wonder it served over 200 000 users and millions of parties. "We are amazed with the positive feedback we're getting, over 2500 mostly 5 star reviews, emails we get about your fun nights, some even XXX rated, and an unplanned #kingofbooze community on Instagram. Makes us proud." Says Kristian Markovic, Co-Founder & representative of Daygames. With glowing reviews and growing community King of Booze is sure to become the next big thing for everyone who likes to have home parties
