Atlantic Beach, Florida - Tropical Software is pleased to announce TopXNotes Mac note organizer has been awarded Apple Daily Report's highest ranking (10 out of 10) in recent full review by the Apple Daily Report.

Apple Daily Report reviewer, Dennis Sellers stated, "Think of TopXNotes as a collection place where you can put info stuff you need to remember, but can't."

"We are very pleased with the careful consideration Mr. Sellers has given TopXNotes," stated Tropical Software president James Lee. "In Apple Daily Report first full review of TopXNotes, Mr. Sellers thoroughly explored our hybrid Apple note organizer and password-protector. We are thrilled he has recognized the value of our unique and easy-to-use approach."

Mr. Sellers goes on to say, "My favorite feature is QuickNotes, where you can tag any note as a "QuickNote" and have it accessible without having to bring TopXNotes itself to the front of your work screen."

The review notes "Mac OS X comes with a Notes app. But it's a weenie tool compared to TopXNotes." and goes on to focus on TopXNotes unique 2-level security with "You can set individual passwords on notes, password the entire notepad, or even both. Take that, Mac OS X Notes!"

The review summarizes with "TopXNotes has all the features you need to keep track of, organize and access all sorts of notes. The ability to password protect, a feature missing from many other note products, is icing on the cake."

TopXNotes had been previously awarded 4 out of 5 mice by Macworld magazine in their "Summer of Mac Gems" series of reviews. Then TopXNotes was favored by the reviewer for its "clean, single window interface that puts controls for highlighting and marking up your text right at your fingertips," as well as its exclusive QuickNotes feature.

TopXNotes has also been highly rated by Macsimum News (9 out of 10), Version Tracker (5.0), and MacUpdate (5.0). Tropical Software was the first to support export of notes to Classic iPod and also makes TopXNotes touch for iOS that can be synced with TopXNotes for Mac.
