

GL Golf Updated to version 2.480: Multiplayer Game Center support added

Published on 12/16/14

Nuclear Nova Software today announced their latest update to GL Golf for the iPhone, iPad, iPod touch, and Mac. The update brings turn-based multiplayer support through Apple's Game Center platform. Golfers take turns playing in three hole increments until all 18 holes are finished, where a winner is declared. In addition to the additional features brought in version 2.480, GL Golf has seen a series of large updates over the past year.

Meadville, Pennsylvania - Nuclear Nova Software today is proud to announce their latest update to GL Golf for the iPhone, iPad, iPod touch, and Mac. The update brings turn-based multiplayer support through Apple's Game Center platform. Golfers take turns playing in three hole increments until all 18 holes are finished, where a winner is declared. In addition to the additional features brought in version 2.480, GL Golf has seen a series of large updates over the past year. Highlights include improved physics and terrain graphics, new sky effects, music, several courses, and more. In GL Golf up to four players can golf forty-six unique courses.

GL Golf up to four players can golf forty-three unique courses. Everything in a real game of golf is included in GL Golf, such as water hazards, sand traps, trees, bushes, wind, four seasons, different times to play, and much more. Other unique features include game saving, three difficulty modes, mulligans, practice mode, as well as different sets of clubs.

Full improvements:

Version 2.480:

- * Turn based multiplayer through Game Center
- * High resolution terrain on newer devices
- * Added a new 18 hole course
- * New gameplay video and screenshots
- * iPad Air 2 and iPad Mini 3 support
- * Fixed device music from stopping while starting a game
- * More realistic hole sizes on Pro/Expert and Blue/Green tee settings
