AssistiveWare today announced the release of updates for its KeyStrokes, Proloquo, SwitchXS, LayoutKichten and GhostReader products for full Snow Leopard compatibility. With these free updates Mac users with physical, speech and language disabilities can now enjoy the pleasures of Apple's new Snow Leopard operating system. The updates resolve various bigger and smaller compatibility issues with Snow Leopard and all current users are strongly recommended to upgrade to the new versions.

Amsterdam - AssistiveWare(R) today announced the release of updates for its KeyStrokes(R), Proloquo(R), SwitchXS(R), LayoutKichten(R) and GhostReader products for full Snow Leopard compatibility. With these free updates Mac users with physical, speech and language disabilities can now enjoy the pleasures of Apple's new Snow Leopard operating system.

The updates resolve various bigger and smaller compatibility issues with Snow Leopard and all current users are strongly recommended to upgrade to the new versions before installing Mac OS X 10.6.

* KeyStrokes 4.1.1 provides a fully-functional virtual keyboard with multilingual word prediction and dwelling for people with physical disabilities.

* SwitchXS 2.5.1 is a single or multiple switch-based computer access and communication solution providing full emulation of mouse and keyboard for use with any standard Mac OS X application. Also supports switch accessible communication panels.

* Proloquo 2.0.2 is a multilingual speech and communication solution for Mac OS X enabling people who cannot speak to use their computer as an AAC device. Not to be confused with our Proloquo2Go product, which turns an iPhone or iPod touch into full-featured communication solution for people who have difficulty speaking.

* LayoutKitchen 2.1.2 is a keyboard, speech panel and scan panel editor for KeyStrokes, Proloquo and SwitchXS.

* GhostReader 1.6.5 is an easy to use multilingual document and selection reader that can also convert text to iPod-ready iTunes files.

For more information and fully-functional downloadable demos consult the products page. For more information contact AssistiveWare directly or one of our distributors such as Origin Instruments Corporation for North America or Kallysta for France.
