

ZappTek Updates iPresent It to Version 1.6

Published on 08/11/07

iPresent It lets the iPod replace a laptop for making presentations. PowerPoint, PDF and Keynote presentations may be easily converted into slideshows for syncing with your iPod. Version 1.6 makes iPresent It compatible with iLife and iWork '08.

FOR IMMEDIATE RELEASE

Winnipeg, Canada - August 10, 2007 - ZappTek is proud to announce its version 1.6 release of iPresent It. As a perfect companion to Apple iPod, iPresent It lets the iPod replace a laptop for making presentations. PowerPoint, PDF and Keynote presentations may be easily converted into slideshows for syncing with your iPod.

iPresent It 1.6 ensures full compatibility with iPhoto and Keynote '08.

Minimum Requirements:

- * Mac OS X version 10.3.x or higher
- * an iPod or other device with the ability to view images via video output (note that the iPod nano does not support video output)
- * Microsoft PowerPoint for PowerPoint presentation processing
- * Keynote for Keynote presentation processing

Getting Started:

To install iPresent It, drag it to your Applications folder or wherever you'd like to keep it. Use the + button to add PowerPoint, Keynote and PDF files. In the preferences select iPhoto or a Folder for saving slideshows (use the same location iTunes uses for syncing your photos with your iPod). After that use the Create Slideshows button to convert the presentations into slideshows. They'll be transferred to your iPod the next time you sync via iTunes.

To run your presentation connect your iPod to a projector or television using an iPod A/V cable provided by Apple. Select the presentation within "Photos" and press the play button to start the presentation. You'll need to make sure you have TV Out activated. We suggest that you select "Manual" for the iPod's "Time Per Slide" setting – this will ensure you have full control of your presentation.

Purchasing iPDA:

You can purchase it from within iPresent It by selecting "Purchase iPresent It..." in the application menu or visit <http://www.zapptek.com/ipresent-it/>. Note that if you don't purchase iPresent It you won't be able to create slideshows with more than 6 slides.

iPresent It 1.6 remains priced at \$17.95 USD with free update for existing customers. The iPresent It trial allows for slideshows with a maximum of 6 slides. Customers may purchase the bundle, which includes iPDA and iSpeak It, for \$44.95 USD; a \$13 savings.

Customers can purchase from within iPresent It by selecting "Purchase iPresent It..." in the application menu or visit <http://www.zapptek.com/ipresent-it/>.
